SENATE TO HOLD NIGHT SESSIONS

Will Put in Longer Hours on the Tariff Bill.

THE COTTON CLOTH SCHEDULE

Subject of Some Lengthy Speeches by Senators Smoot and Lodge—Man From Utah Makes a Technical Presentation of the Entire Subject. Senator Dolliver and Senator Aldrich Have a Brief Altercation.

Washington, June 2.—After in effect receiving information from Chairman Aldrich that beginning with tonight it would be expected to hold night sessions for the consideration of the tariff bill, the senate began consideration of the cotton cloth schedule. This portion had been passed over upon the first reading with the understanding that many amendments to it would be offered and that much time would be necessary for its discussion. The first day did not fall short of a justification of this supposition.

There were not many speeches, but those made were of considerable length. Senators Smoot and Lodge, both majority members of the finance committee, were the principal orators and both spoke in support of the committee provisions. The Utah senator entered upon a technical presentation of the entire subject, reaching the conclusion that the senate bill does not, in reality, increase the duties contemplated by the Dingley law. He undertook, however, to show that by the various rulings of the customs authorities these duties had been re-

duced to the extent of an average of 20 per cent. It was the purpose of the committee to carry into effect the existing law. He declared that the committee had been influenced by neither the manufacturers nor the importers.

Senator Lodge gave especial attention to the cotton schedule, but incidentally spoke of the general policy of the Republican party with reference to the subject of tariff revision. He contended that there had been no intention of revising the tariff downward, but that the purpose of the party had been merely to revise the tariff as to protect American manufacturers against cheap foreign labor. He declared that New England factories were returning only small

dividends to their owners and traced the general increase in the prices of commodities to the enlarged volume of gold in the country, rather than to the advantages accruing from the protective system. He explained at length the process of mercerization in order to show that the protective rate allowed for this process was not excessive.

Early in the day Senator Dolliver took exception to a remark by Senator Aldrich. The Iowa senator had offered an amendment to the cotton schedule providing for ad valorem rather than specific duties, whereupon Mr. Aldrich made incidental reference to senators "who came here with 'importers' briefs." Mr. Dolliver made sharp reply, but when Mr. Aldrich explained that he had not meant any reflection, calm was restored and business proceeded with serenity.

JOHN JUNKEN IS FOUND GUILTY

Negro Murderer of Iowa Girl Sentenced to Death.

Des Moines, Ia., June 2.—John Junken, colored, was found guilty at Centerville of the murder of Clara Rosen, the Ottumwa choir singer, on Feb. 5, last, and was sentenced to death by Judge M. A. Roberts.

The jury returned its verdict after a deliberation of less than four hours. There was an immense crowd awaiting the result of the trial and as the last words were read by the clerk a shout went up which was taken up by the crowd in the courthouse square. Attorneys for the defense waived their customary right of three days before sentence of death is passed and agreed that Judge Roberts pass sentence immediately, which the court did. Junken will hang the last Friday in July, 1910.

He was taken to Fort Madison for safe keeping till the day of the execution.

Adjutant General Guy Logan of Des Moines was in the courtroom when the sentence was pronounced. He stated that there would be no need of militia to guard the prisoner, as the verdict met with popular favor.

A good sized mob congregated about the courthouse when the verdict was announced. The guard formed about the prisoner and made a dash for a street car, fighting their way aboard. The car was run with all possible speed to the Burlington tracks, where a special train was waiting, and Junken was hurried to Fort Madison penitentiary.

Junken's crime was one of the most atrocious in Iowa. He confessed killing Clara Rosen on the night of Feb. 5, last, with a stone while she was returning from the home of her sister. Her body was found by a searching party the next morning.

NO PARDON FOR CLEMENTS

President Taft Will Not Intervene in Behalf of Minnesota Banker.

Washington, June 2.—President Taft has rejected an application for pardon made in behalf of Thomas B. Clements of Faribault, Minn., formerly president of the First National bank, who is serving a term of imprisonment in the Stillwater penitentiary. Clements was convicted of receiving deposits while the bank was insolvent. Application for pardon was based upon his advanced age. It was reported upon adversely by the attorney general.

ARRESTED ON SUSPICION

Bricklayer Thought to Have Strangled Laura Register.

Los Angeles, Cal., June 2.—Charles A. Barr, who says he is a bricklayer, was arrested on suspicion of having strangled to death Laura Register, twenty-six years old, in Providence, R. I., May 10.

Barr was trying to sell a bracelet to a pawnbroker to obtain money to attend a prize fight when arrested.

It is said by the officers that the bracelet has been identified as one worn by Miss Register when she was murdered.

Twelve Persons Injured.

Montgomery, Ala., June 2.—Twelve passengers on a Western Alabama train sustained painful but not serious cuts caused by a falling tree smashing the windows of the coach while the train was running at a high rate of speed.

RESIST REMOVAL TO WASHINGTON

Owners of Indianapolis News Appear in Court.

CRIMINAL LIBEL IS CHARGED

Publishers Indicted in the District of Columbia for Publishing Articles Intimating That There Was an Enormous Graft in the Purchase by the United States of the Panama Canal Zone.

Indianapolis, June 2.—Delavan Smith and Charles R. Williams, owners of the Indianapolis News, were before Judge Anderson of the United States court of this district, sitting here, resisting removal to the District of Columbia for trial on indictments charging them with having committed criminal libel in publishing articles intimating that there was an enormous graft in the purchase by the United States of the Panama canal zone. Messrs. Smith and Williams were indicted by the grand jury of the District of Columbia jointly with the proprietors of the New York World.

Stuart McNamara, assistant United States attorney for the District of Columbia, and Charles W. Miller, district attorney, represented the government in the case, and Ferdinand Winter of this city is the attorney for the defendants. The latter sought to prove that the newspaper publishers were not guilty of the malice necessary to complete criminal libel, and that they had not committed an offense for which they could be removed from one district to another for trial and that the indictment charging them with criminal libel was baseless.

Resisted Introduction of Evidence.

The government resisted the introduction of evidence in the hearing. Mr. McNamara and Mr. Miller contending that it was inessential for a committing magistrate to hear evidence. The exhibits of editorials printed in the Indianapolis News, they held, were libelous if they violated a statute of the District of Columbia providing that criminal libel may lie in the publication of an article not justified in truth, and that a person found guilty may be fined not more than \$1,000 or imprisoned for more than five years, or both. The government maintained that on the face of the indictment and the information, the defendants should be transferred to the District of Columbia for trial.

Judge Anderson ruled against the government. The defense then placed on the stand Ernest I. Lewis, a staff correspondent of the News, who denied that he had had any instructions from his employers as to handling the Panama canal matter in his dispatches from the political headquarters at Chicago during the last campaign. Further objections by the government's attorneys to the admittance of evidence was made as each successive witness was called during the day, but Judge Anderson said he would hear all that was offered by either side.

Judge Anderson, in discussing the question, declared malice in a civil action was very different from malice in a criminal case.

Delevan Smith was on the witness stand and said he had no personal knowledge of the editorials before they were published, as Mr. Williams had full charge of the editorial page.

Unless the government decides to introduce further evidence, argument will next begin and the matter will then be in Judge Anderson's hands.

HELD UP BY HIGHWAYMEN

Crowd of Merry-makers Relieved of \$3,000 in Gems and \$200 Cash.

Denver, June 2.—Four masked highwaymen held up a crowd of thirty merry-makers at the Tavern, a resort at Petersburg, ten miles from Denver, and made away with more than \$3,000 worth of diamonds and \$200 cash. The robbers escaped on horseback.

Two Persons Drowned.

Chicago, June 2.—Two persons drowned and two others narrowly escaped a similar fate in a rowboat collision in a park lagoon. The dead are Luke O'Donnell, thirty years old; Mrs. Luke O'Donnell, twenty-six years old.

Poisoned by Steak.

Janesville, Wis., June 2.—L. A. Malow, a farmer, is dead and his widow and daughter are said to be dying as the result of eating hamburger steak that was full of ptomaines.

Silk Hosiery

In the selecting of a gift for the young lady consider the appropriateness of silk hosiery. We have just placed a number of new things in stock which are not expensive. We show a beautiful silk hose for \$1.50. Another with lisle feet and garter tops at \$2.00 and a beautiful embroidered quality at \$2.00.

"MICHAEL'S"

"MICHAEL'S"

CHARGED WITH HER MURDER

Chicago Physician Accused of Killing His Wife.

Chicago, June 2.—Dr. Haldane Cleminson was formally booked for murder here. The complaint charges the young physician with slaying his wife, Mrs. Nora Jane Cleminson.

The little home of the Cleminsons was crowded when the funeral of Mrs. Cleminson was held. Dr. Cleminson attended under police guard. Every eye in the room was on him as he silently took his last look at the young woman whose tragic death is laid at his door, but he maintained his composure.

The decedent's stomach was placed in the hands of experts for chemical examination. Coroner Hoffman directed that the first test be made for traces of morphine.

Chief of Detectives O'Brien stated that Dr. Cleminson's declaration that his wife had been chloroformed by burglars, and that he himself suffered from the poison was utterly unworthy of credence. The money and spoons which it is alleged the physician said were stolen were found in a closet of his house. All attempts to make the prisoner talk failed. He refused to answer "on advice of counsel."

A clew which is said to promise interesting developments was discovered by detectives. They unearthed, it is said, a florist's shop where Dr. Cleminson is alleged to have purchased flowers for two women. The orders for the flowers are said to have been on file in the shop.

The case has excited great interest, owing to the youth and comparative prominence of the principals. After several years of struggling it is said the doctor's practice had grown to liberal proportions. Mrs. Cleminson was bright, of an affectionate disposition, and had many friends.

Dr. Cleminson made a partial confession to the police in which he admitted that the story he had told in regard to a burglary was false and that he had deliberately hidden the silverware to make it appear more real.

LAKE STRIKE TO CONTINUE

Employers Have No Intention of Arbitrating Trouble.

Cleveland, O., June 2.—So far as the officers or members of the Lake Carriers' association are concerned, the strike of the lake seamen will continue. This situation became apparent when the representatives of the boards of arbitration from six states bordering upon the Great Lakes met here with Seth Low of New York, president of the National Civic Federation, in an effort to bring about a conference between the officers of the Lake Carriers' association and the strike leaders.

Conferences were held with prominent members of the association. They informed the mediators that they would not treat with the strikers, that they would not waver from the attitude of the association as defined by its president, William Livingston of Detroit, and that the association would in no wise modify its position on the subject of employing labor.

Facing this situation the arbitrators issued a statement in which they said that any further efforts to effect a conciliation would be futile.

Late last fall the association decided to adopt the "open shop" policy with regard to the employment of seamen. This is the only grievance of the employees. They claim it is a blow to unionism. The association controls about 90 per cent of the boats upon the Great Lakes engaged in the iron ore and coal carrying trade.

PLACED IN THE TOMBS PRISON

Vice President of Copper Company Incarcerated.

UNTIL BOOKS ARE PRODUCED

Official of One of the Heinze Concerns Must Remain in Jail—Sanford Robinson, a Prominent Director of the Same Company, May Also Be Sent to Prison by Judge Lacombe of New York.

New York, June 2.—George Baglin, vice president of the United Copper company, was taken to the Tombs prison and must remain there under an order of Judge Lacombe of the United States district court until the missing books of the company which contain the evidence upon which the federal district attorney seeks the conviction of F. Augustus Heinze are produced. A similar punishment also hangs over Sanford Robinson, a prominent director of the company, whose case will be further considered by Judge Lacombe.

Both men are alleged to have permitted the splitting away of the books that were under subpoena. Baglin testified before the grand jury that he had overheard Robinson and one of the Heinze brothers conspiring to remove the books and had interposed no objection.

"Nothing remains for me to do but to commit you for contempt," said Judge Lacombe after hearing Baglin's admission. "You had no right to stand idly by while men were plotting the removal of books wanted in a grand jury investigation. An officer or an employee cannot so act with impunity."

Baglin was visibly affected by the sentence of the court. He was allowed to communicate with his wife and lawyer before he was led to the Tombs.

Robinson's case was then taken up. It was shown that he had refused to testify before the grand jury regarding his alleged conversation with one of the Heinze brothers, maintaining that he and Heinze were attorneys for the company and that their conversation was privileged.

Judge Lacombe declined to accept this plea. "Members of the bar," said he, "who chose to become officers or directors of corporations and who are accused as directors of conspiring to violate the law, cannot evade the challenge by claiming to be members of the bar. If the minutes of the grand jury show that the situation is as I understand it to be, I shall certainly commit Robinson for contempt."

CONDITIONS ARE UNCHANGED

Street Car Strike Situation at Philadelphia Not Altered.

Philadelphia, June 2.—The first ordinary business day since the beginning of the street car strike last Saturday morning closed with conditions practically unchanged. The traction company notified its men that those who had been discharged for striking on Saturday would be taken back if they reported for work at once. Men who had been discharged for trifling offenses in the past were also wel-

comed back. By the aid of the recruits hired in this and other cities the company was enabled to run 700 of its 3,300 cars until nightfall, when no further attempt was made to continue the traffic until morning.

The first disturbance in the central part of the city occurred when men employed in erecting a high building at Chestnut and Thirteenth streets showered nails and other missiles on a passing car. No arrests were made, but the police notified the builders that a repetition of the occurrence would result in all work on the building being stopped until after the close of the strike.

The mayor has extended the time which saloons are allowed to remain open from 6 a. m. until 8 p. m.

PLACED ON THE RETIRED LIST

Lieutenant General MacArthur Succeeded by General Wood.

Washington, June 2.—Lieutenant General Arthur MacArthur, the ranking officer of the army, was placed on the retired list today by operation of law on account of age and the grade of lieutenant general then ceased to exist in the army.

General MacArthur is now at his home at Milwaukee, Wis., where he has been engaged for several months

GENERAL MACARTHUR.

In the preparation of a report of his observations while with the Japanese army in Manchuria. By his retirement, Major General Leonard Wood, commanding the department of the East, becomes the ranking officer of the army, but without increase of rank.

SENTENCE IS POSTPONED

Tennesseans Will File Petition for a Rehearing.

Washington, June 2.—When former Sheriff Shipp and the five other Tennesseans who were declared guilty last Monday of contempt of the supreme court of the United States presented themselves to the court for sentence, the request of their counsel for a postponement to allow them to file petitions for a rehearing was granted. The six men remain out on bond until the next term of court.

St. Paul Man Killed.

St. Paul, June 2.—Caught in a whirling, flapping belt, which he was attempting to repair, Pearly Holmes, an oiler employed at the works of the St. Paul Crushed Stone company, was jammed through an immense pulley used to lift huge pieces of stone and thrown by the machinery upon the floor, mangled and crushed beyond recognition. He was hurried to the city hospital, where he died without regaining consciousness.

REED SMOOT.

duced to the extent of an average of 20 per cent. It was the purpose of the committee to carry into effect the existing law. He declared that the committee had been influenced by neither the manufacturers nor the importers.

Senator Lodge gave especial attention to the cotton schedule, but incidentally spoke of the general policy of the Republican party with reference to the subject of tariff revision. He contended that there had been no intention of revising the tariff downward, but that the purpose of the party had been merely to revise the tariff as to protect American manufacturers against cheap foreign labor. He declared that New England factories were returning only small

SUBSCRIPTION RATES

One Month..... Forty Cents
One Year, strictly in advance, Four Dollars

Office in Dispatch Building on 6th St., opposite the Post Office.

Entered at the post-office at Brainerd, Minn., as second class matter.

WEDNESDAY, JUNE 2, 1909.

It is neck and neck between the June bride and the sweet girl graduate these days.

AITKIN is to be the home of the new superintendent of banks, as it is said Gov. Johnson will appoint J. B. Galarneault to the position.

A CLEVELAND woman has eaten onions for one hundred years twice a day and attributes the fact that she has lived to be 115 years old to this fact. Good boost for onions if you don't like 'em.

THE three small boys who directed the attention of the police to a place where the Union Pacific train robbers were arrested will each receive \$5,000. It was purely accidental but the lads will appreciate their small fortune none the less.

A DULUTH woman put \$20,000 between the sheets for safe keeping and then went to the opening of the fair at Seattle, where she was visiting. When she returned she found she did not have money enough left to buy a ticket to the fair next day—the burglar beat her to it.

THE St. Cloud woolen mills are to be offered for sale by the stockholders. The mill has not been operated this year for lack of funds although it is understood it was a paying proposition when in operation, but the company had not sufficient funds to continue the work.

THE members of the last legislature are barred from holding certain other positions under the government, that of superintendent of the census being the place under discussion. As the members paid themselves off for the two years there is no way of resigning unless they return the salary received in advance.

THE suit to restrain the state auditor from paying out any money appropriated in the so-called "pork barrel" bill has been commenced. The state has raised the point that a state official is not subject to injunction, and Judge Brill has taken the matter under advisement. In the meantime the counties that have already spent some of the money appropriated are wondering where they are at.

THE Anoka Herald thinks that an independent newspaper is one which goes to the highest bidder, changing its politics at the ring of the almighty dollar, and the Evansville Enterprise remarks that the statement cannot be denied. Whatever the facts may be the newspaper that is run on the independent, go-as-you-please, public be damned policy, with no principles to adhere to is in a good position to change its mind for a cash consideration and the public is none the wiser—in fact it is none of the public's business if the man who owns the plant wants to change his mind and his politics for a dollar.

TO HAVE PARK ON RICE LAKE

Hon. Leon E. Lum Signifies Willingness to Donate Land for that Purpose

AFTER OTHER LAND ALSO Park Board Will Endeavor to Secure Donation of Adjoining Land Also

If the plans of the Park board work out Brainerd will have one of the finest water front parks in Central Minnesota. Hon. Leon E. Lum has agreed to donate the surface rights of a plot of ground at the head of Rice Lake, providing the park board will expend at least \$100 in clearing it up and fixing it up.

President Adair, of the Park Board, stated today that if the land owned by Mr. Lum was the land they wanted his offer would certainly be taken advantage of. There is, he states, a little uncertainty as to the lines, if certain high land is included in the tract owned by Mr. Lum, then the board will fix it up in good shape. If however, the lines are such that Mr. Lum's land includes only a certain piece of marshy land, the board of course would not care to park it. Mr. Lum, himself, is, it is said, somewhat at sea as to the lines and they will be run out by the county surveyor in a few days. Adjoining Mr. Lum's land there is also a piece owned by the Mississippi and Rum River Boom company, which the board will endeavor to induce them to donate also.

There is talk among the launch men, should the park be secured at once to try and have an aquatic celebration up there on the Fourth of July, or rather on the fifth.

Regular meeting of Brainerd Lodge No. 615 B. P. O. E. will be held at Elk's hall on Thursday June 3rd at 8 o'clock. All members are requested to be present as important business is to be transacted. By order of C. D. JOHNSON, Ex. Ruler, CHAS. H. RATTINGER, Secy.

Many weak, nervous women have been restored to health by Foley's Kidney Remedy as it stimulates the kidneys so they will eliminate the waste matter from the blood. Impurities depress the nerves, causing nervous exhaustion and other ailments. Commence today and you will soon be well. Pleasant to take. H. P. Dunn. mwf

THE SOO LINE

Contract Let for 200 Miles of Road, Work to Start at Once. The Proposed Route

The Soo road has let a contract to Foley Bros. for the construction of 220 miles of road between Moose Lake and Thief River Falls, the construction of which will take two years. The line will run from Moose Lake to Tamarack on the Northern Pacific's Duluth line, thence to Bena at the foot of Winnebigoish Lake on the Crookston-Duluth line of the Great Northern, thence run across the Minnesota & International near Tenstrike, going a little north of due west along the Great Northern line until past Bemidji, then going northwest to Thief River Falls.

Hoarseness, bronchitis and other throat troubles are quickly cured by Foley's Honey and Tar as it soothes and heals the inflamed throat and bronchial tubes and the most obstinate cough disappears. Insist upon having the genuine Foley's Honey and Tar. H. P. Dunn. mwf

DIRE DISTRESS

It Is Near At Hand to Hundreds of Brainerd Readers

Don't neglect an aching back. Backache is the kidneys' cry for help. Neglect hurrying to their aid means that urinary troubles follow quickly. Dire distress, diabetes, Bright's disease.

Mrs. Emma Ekholm, living at 1301 E. Oak St., S. E., Brainerd, Minn., says: "I do not hesitate to endorse Doan's Kidney Pills. My daughter suffered terribly from backache and other symptoms of kidney disorder for years. The use of a few boxes of Doan's Kidney Pills, procured from H. P. Dunn's drug store, have proven of great benefit in her case. Her confidence in this remedy is very high and she intends to continue its use until every sign of kidney trouble is eliminated from her system."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

DEATH OF MRS. J. B. ELDER

Was for Many Years a Devoted Worker in Methodist Church—Leaves Husband and Son

Mrs. J. B. Elder, died Tuesday evening, June 1, 1909, at her home in this city after an illness of almost a year. The funeral will be held at the First Methodist Episcopal church Thursday afternoon, at 3 o'clock, conducted by Rev. Charles Fox Davis, pastor of the church. Mrs. Elder was a member of the Methodist church for about 25 years and was always a kind wife and loving mother and a devoted worker in the church. She suffered a severe blow in the death of her daughter Trilby a year ago last December and from that time failed steadily.

Lillie Hampton Barriger was born in Logan county, Ky., July 23, 1864. She was married at Woodburn, Ky., March 7, 1889, to Joseph B. Elder, who survives her. To them were born three children, one little one who died in infancy, a daughter Trilby, who died December 12, 1907, at the age of nearly twelve years, and Robert, about 16 years of age. She is also survived by her aged parents, Mr. and Mrs. W. A. Barriger, of Woodburn, Ky., two brothers and two sisters, as well as other relatives residing in Kentucky. Mr. and Mrs. Elder lived in Louisville, Ky., from the time of their marriage until 1897, when they came to Brainerd which has since been their home and where the bereaved husband and son have a host of friends who sincerely sympathize with them in their sorrow. Mrs. J. W. Howard, of Russellville, Ky., an aunt of Mrs. Elder, and Mrs. D. R. Elder, of St. Paul, a sister-in-law, are in the city, the former having come last week and the latter yesterday. D. R. Elder is expected tonight to attend the funeral.

A Card

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. H. P. Dunn. mwf

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

MUSIC AND DRAMA

The Dandy Dixie Minstrels, supporting Black Patti are said to be the best colored minstrel troupe on the road. They appear at the Brainerd Opera house Saturday, June 5th and will doubtless draw a big house. Their combination of fun and good music is great.

The vaudeville act at the Bijou this week is the well known aerial gymnastic work of the marvelous Cowles family.

ily, consisting of Manager Cowles, Mrs. Cowles and little Marguerite. Their work is all high class and that of little Marguerite, the physical culture-child wonder is of a class seldom seen in cities of this size.

Johnny—I made a quarter today, pa. Pa—That's good! How did you make it? Johnny—Borrowed it from ma.—Chicago News.

FIRST CONCERT TONIGHT

The Juvenile Concert Band Gives its First Concert in Northern Pacific Park This Evening

The Juvenile Concert band will give its first band concert this evening. The boys look fine in their new uniforms and did themselves great credit on Memorial day and there is no question but that, weather permitting, there will be a large attendance at their weekly free concerts, the first of which will be given this evening.

If you want to feel well, look well and be well, take Foley's Kidney Remedy. It tones up the kidneys and bladder, purifies the blood and restores health and strength. Pleasant to take and contains no harmful drugs. Why not commence today? H. P. Dunn. mwf

Fuller-Weaver

The wedding of Miss Clara Fuller and Mr. Guy L. Weaver took place at the home of the bride at Hubert, Tuesday evening, June 1st. Miss Lula Fuller was maid of honor and Mr. A. C. Fuller was groomsmen. The bride looked charming in silk mull with baby Irish lace trimmings. She wore real orange blossoms in her hair. The wedding party stood under the floral arch of green and white.

After the ceremony, read by Rev. H. W. Knowles, a very delicious supper was served in the dining room, where pink and white Killarney roses were the decorations. Mr. and Mrs. Weaver left for Minneapolis on the midnight train. The guests were Mr. and Mrs. W. L. Curtis and Miss Marion Phelps of Brainerd, Rev. H. W. Knowles and the Misses Knowles from Duluth and Cami Fuller, of Bemidji.

MAKES GOOD HEALTHY FLESH

H. P. Dunn Offers to Pay for Samose if It Fails

Begin the use of Samose today, and you will soon notice a gain in good, healthy flesh. To all who are thin, weak and run down, this remarkable flesh-forming food promises plump, rosy, perfect health, vigor and vitality. Most people eat enough to become fat; the trouble is not lack of food, but lack of assimilative power.

Samose mingle with the food that is eaten, so that it is assimilated by the blood, and builds up pleasing plumpness and good healthy flesh. Those who use Samose for a week or ten days will soon notice a gain in weight and an improvement in general strength and health.

Put good, solid flesh on your bones, and you will be strong and well. In no other way can this be done than by the use of Samose. It gives plumpness and physical grace to the thin and scrawny, and will make you bright, rosy and morally fat.

Samose is in tablet form, pleasant to take, and is sold by one of the most reputable drug stores in Brainerd.

H. P. Dunn, under his personal guarantee to refund the money if it does not give satisfaction.

FASHION VERSUS BEAUTY.

Boston Sculptor Tells How Female Form Is Being Ruined.

That woman's figure has been ruined by slavery to fashion is the declaration of Hugh Cairns, the Boston sculptor. He says:

"Woman's figure is getting poorer and poorer every year. The women of today are getting farther and farther away from the Greek figure of 2,000 years ago.

"As one instance of this, those who determine what is fashionable are trying to bring the waist line farther down all the time. At present an effort is being made to get it down as low as the hips. This is all wrong, of course, for nature long ago determined that it should be just below the breast, allowing a soft, graceful line from hip to armpit. So long as fashion dictates that the waist shall be close to the hips, so long will we have women with bulging, lumpy hips and other deformities.

"If women would have just such a waist as they seek—the beautiful that we see in classic paintings and sculpture, the waist that characterized the ancient Greek woman—let them avoid fashions."

The resting place of Daniel Defoe is in the heart of one of London's busiest quarters, about a quarter of a mile from the Bank of England.

If you desire a clear complexion take Foley's Orino Laxative for constipation and liver trouble as it will stimulate these organs and thoroughly cleanse your system, which is what everyone needs in the spring in order to feel well. H. P. Dunn. mwf

A Swell Affair.

A New Yorker who made a visit to the Cobalt district in Canada was deeply impressed by the report he heard of a fashionable wedding in the back country. Two habitants met on the train and took the seat next to his. "Ah, Antoine," one of them exclaimed, "eef you 'ave honey been at dees wedding of Pierre Coubertin an' Emille La Roche you shall nevaire forget heem. So gentil! So mooch luxury! H'ev'ery one so 'appy an' so grand an' fine! Theenk of eet, Antoine—h'ev'ery one wear de Prince h'Albert pants an' dreenk de real ginger ale!"

CANNON'S HOT SHOT.

Speaker of the House Ridicules Uplift Movement.

"PURE ROT," SAYS UNCLE JOE

Declares Former President Roosevelt's Country Life Commission is a "Flat Failure"—Has No Patience With Attempt to Relieve Conditions That Are Not Understood.

Speaker Joseph G. Cannon in a recent after dinner speech before the national city planning conference in Washington dealt some hot shot to one of former President Roosevelt's pet commissions and other curiosities of the uplift movement.

The speaker took the following falls out of the uplift:

"Don't try to relieve conditions that you don't understand."

"This country life commission that has been trying to uplift the poor farmer with theories! I'll take oath that they don't know what they are talking about."

"What they have compiled is pure rot. The commission is a flat failure."

"The idle rich * * * bear about the same relation to the great mass of the American people that the fly on the elephant's trunk bears to the elephant."

"The people who do the most harm are those who give to what they call charity either for notoriety or to bribe God."

"It is well enough to plan for the future of this country," said Mr. Cannon—"this country which is to have 500,000,000 inhabitants in the years to come. There are a great many things which can be done in planning for those years, but no plans that we in this generation can map out will be big enough or broad enough to meet the coming needs."

"I bid godspeed to this planning that you are working for, but for heaven's sake don't follow the example of some and try to relieve conditions that you don't understand. I have no patience with those theorists who are trying to relieve what they are pleased to call the agricultural section of this country. There are several excellent gentlemen on the country life commission, but what they have compiled is pure rot. If what I have read of it is a fair sample. The country life commission is a flat failure because it has dealt with conditions that didn't require dealing with by theorists and because its members don't know what they are talking about."

"Open the sensational newspapers and the magazines and you will read all about the activities of the idle rich, their foolishnesses and their fads. They are of no real consequence. They bear about the same relation to the great mass of the American people that the fly on the elephant's trunk bears to the elephant, but they give the excuse for demagogues, who live not by the sweat of their faces, but by the sweat of their tongues, to inveigh against economic conditions existing in this country. That is why they constitute a real evil. Once in awhile when other methods of seeking notoriety have failed they declare themselves to be friends of the people and proclaim themselves to be Socialists."

"I don't regret immigration. I would not be here if it wasn't for that. I'd be scattered over the continent of Europe. There'd be a little of me in the Low Counties, a mite in France, a portion in Ireland, some more in England and Scotland. The great bulk of our immigrants live by the sweat of their faces, and any one who does that is worthy to be given recognition in this country of ours."

Mr. Cannon paid a high tribute of respect and admiration to Mrs. V. G. Simkhovitch of New York, a settlement worker, whose work centers in a block in a New York city street in which more than 1,000 persons live. Mrs. Simkhovitch spoke in a quiet but effective manner of her labors in this congested district, where the work of the settlement worker is so often beset with trials that demand forbearance and endless patience.

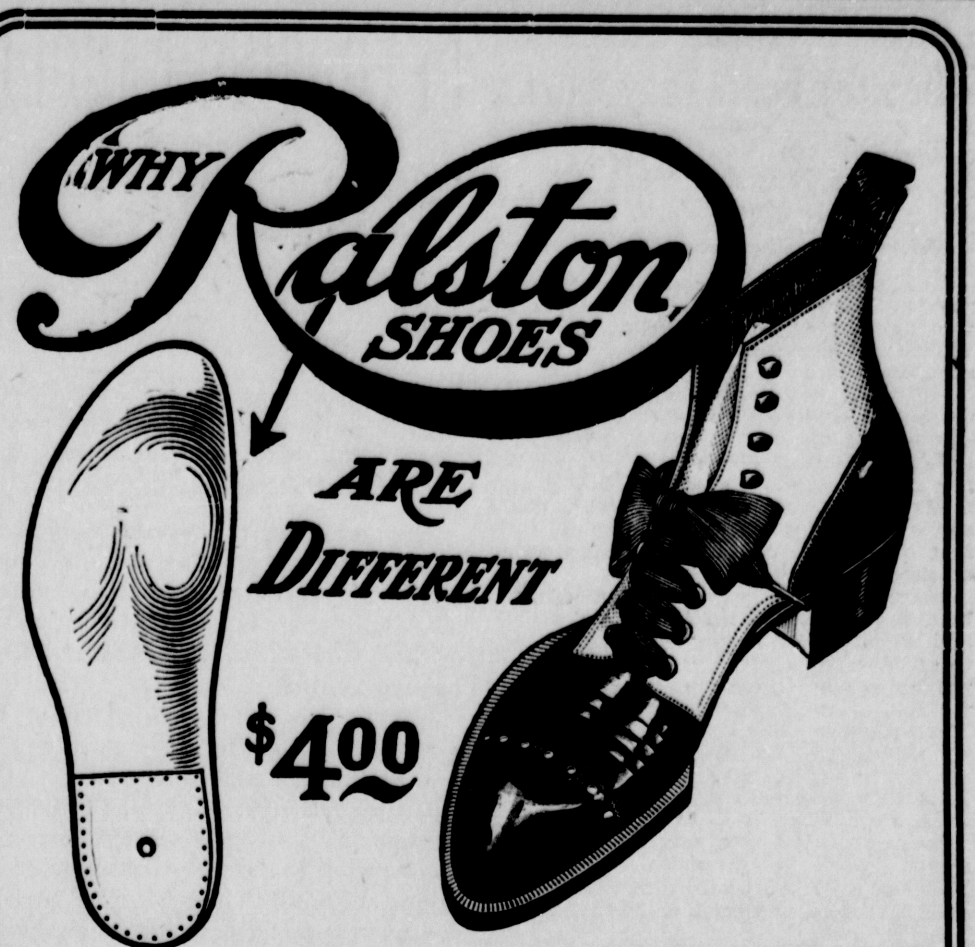

The speaker found every reason to believe that the world is growing better each day and deprecated the existence of pessimists whose chief mission is to flout discouragement before the eyes of the public.

Bronze Badges For Cuban Service.

All the officers and men of the United States army who served in Cuba during the period of pacification from Oct. 6, 1906, to April 1, 1909, will receive from the government a service badge with ribbon in recognition of that service. The badge and ribbon will be issued as a part of the army uniform, gratuitously to enlisted men and at cost price to officers. This action is taken by direction of President Taft. The badge will be of bronze and will be similar in general design to the badges previously authorized for services during the Spanish war and the Philippine insurrection.

American Shoes For Dutch Princess.

The tiny feet of Holland's baby princess, daughter of Queen Wilhelmina, are to be incased in American soft soled shoes, the most costly infant's shoes that were ever made in the United States. They bear the stamp of a Brockton (Mass.) firm. There are seventeen pairs in the order recently finished. In one of the seventeen pairs the lining is a piece of satin from Queen Wilhelmina's wedding gown. Another pair is made of cloth of gold, one pair is of cloth of silver, and still another is of the finest white Parisian kid.

RALSTON SHOES are so constructed as to preserve the natural tread line of the foot regardless of the style of the shoe. In other words you can select the style of toe which best pleases your fancy with the knowledge that you are not sacrificing comfort for style.

Your feet will take as naturally to a pair of RALSTON SHOES as a duck takes to water—no cramping; no breaking in Ralstons; for they are foot-moulded when in process of manufacture.

If your feet bother you—wear RALSTON SHOES. Let us show you the styles we carry.

APPEAL FOR PROTECTION

Officials of Sismicou County in Fear of Striking Lumbermen.

Sacramento, Cal., June 2.—Governor Gillett and Adjutant General Lauck were besieged all day by messages from the officials of Sismicou county, appealing for the militia to guard property from attack by striking lumbermen.

Before taking action, the officials are awaiting word from Colonel A. W. Bradbury, who is at the scene of the trouble.

Colonel Bradbury notified the governor that the situation seemed to be serious and suggested that preparation be made to have the militia ready to act immediately.

A special train has been arranged to rush troops to the scene.

Cyrus Wellington Dead.

St. Paul, June 2.—Cyrus Wellington, for years chief counsel for the Great Northern railway and later private counsel for James J. Hill, died at the home of his daughter, Mrs. H. W. Helmbold, at Balsam Lake, Wis. Mr. Wellington was a veteran of the Civil war.

A Hurry-Up Medicine

Every housekeeper recognizes the need of effective remedies to be used in emergencies—when something must be done right away. Such a remedy is Perry Davis' Painkiller, for sprains and bruises, for strained muscles and the aches and pains resulting from blows and falls. Burns and cuts are instantly relieved by it and helped to healing. Its mission of mercy began seventy years ago. It is used in all countries and millions of bottles sold annually. There is but one Painkiller, Perry Davis'. Have you seen the new large 35c size?

Tribute to George Meredith.

Died May 18, 1909.
He listened to the mighty lyre of earth
And learned the lore of soul compelling song.
He pondered on the rune of right and wrong
And saw the hearts of men, their woe, their might.
In him our vision had a second birth.
For by his words we saw as through some strong
Enchanted lens the conscience of the throng.
The font of ill, the hidden source of worth.

Shall death claim him, on deathless knowledge reared?
Shall dreams o'ertake the master of the dream?
Nay, his the perfect love that never feared.
His words send through our grief a radiant gleam—
"With Life and Death I walked, and Love appeared
And made them on each side a shadow seem."
—Joyce Kilmer in New York Sun.

Week End Excursions

Via the South Shore for Detroit, Toledo, Cleveland and Buffalo by rail to St. Ignace thence D. & C. N. Company's steamers, leaving Duluth every Friday, June 4 to July 30. To Detroit and return \$17.00. Limit Sept. 15.

To Dinner Via Balloon.
Going to dinner forty-two miles away in a balloon was the experience of N. H. Arnold, A. D. Converse and W. H. Richardson, who recently ascended at North Adams, Mass., in the North Adams No. 1. The balloon was sailing near the ground over the farm of George W. Hodges at Greenfield Center, N. Y., when two of the farmer's daughters invited the party to come down and have dinner, and they did.

"Strictly Pure."
The United States is not alone in labeling its foods as "strictly pure." A writer in the London Strand Magazine quotes the following from a bottle of "Tonnato Sauce" purchased somewhere in the Straits Settlements: "Tonnato Sauce—The sauce are pur. The flavor are terrific. Hope not think imitation as good fine as us sauce. We haynt put nothing but nice tonatoe in sauce which give us such fine terrific flavor. Once taste will have more. Januwalla & Co Main Road Taping Straits Settlements."

Healthy Food—Easy Work

If It Takes Your Strength to Digest Your Meal You Can't Do Much Work.

The power to overcome all the ailments of human life, and to meet all the difficulties which life presents is within the province of every individual, says one writer of authority.

He might have added with equal truth most of our ailments we bring upon ourselves, and very often we alone are responsible for our difficulties. Wrong living causes many ailments. Rich, greasy foods at all times, day or night, cause stomach disorders, which must vitally affect every part of the system, becoming quickly chronic.

Start the day right with a sensible breakfast of E-C Corn Flakes or Egg-O-See Wheat Flakes. They are always ready to serve—crisp and delicious. They satisfy the hunger and give health and strength without overloading the digestive powers. Many a chronic stomach has been restored to health by Egg-O-See breakfasts of crisp flakes of corn or wheat served with good milk or cream and a little fruit of some kind.

Remember it is the original and justly famous Egg-O-See process that makes the E-C Corn Flakes and Egg-O-See Wheat Flakes so nice and crisp and healthful.

THREE MEN KILLED AT TOWER, MINN.

Another Badly Injured by Fall of Earth in a Mine.

Duluth, June 2.—Two men were instantly killed, one received injury from which he died later and a third was badly injured by a cave-in or fall of earth on the fifteenth level of shaft No. 8 of the Soudan mine at Tower. The dead are:

Charles Morrin, Austrian, aged twenty-five; single; came to Tower four years ago.

Gabriel Nikkala, Finn, aged thirty; single; resident of Soudan.

Martin Koretich, aged forty; survived by a wife and several children. John Rus had both feet crushed and it was necessary to amputate his limbs.

Morrin and Nikkala were caught by the full force of the cave-in and badly crushed and mangled. It was three hours before their bodies were recovered. Koretich had his skull fractured and both feet crushed and was in a dying condition when removed to his home, where death ensued several hours afterwards.

About 100 feet of ground, torn and loosened by a blast, fell upon the men.

Legends of Wallenstein.

It is told of Wallenstein, duke of Friedland, the celebrated Austrian general, that he had ordered an officer to be put to death for appearing at his levee with the clank of spurs and that he had hung a valet de chambre for presuming to wake him without orders. It was said that his palace was built on the ruins of a hundred houses, that his stables were of the most sumptuous description, that each horse had a rack and manger of polished steel and that the stalls were divided by intercolumnations of Bohemian marble.—W. H. Davenport Adams.

To Regulate the Bowels

Keep the bowels regular.

This is the first and most important rule of health.

You can depend on Dr. A. W. Chase's Kidney and Liver Pills to help you carry out this rule.

They effect prompt and thorough movement of the bowels and as they do not lose their effect the dose does not have to be increased.

By their enlivening action on the liver they positively cure biliousness and constipation.

MR. PHILIP BUCKLE, Gypsum, Kansas, writes:—"For sixteen years I had to use medicine for constipation and find Dr. A. W. Chase's Kidney and Liver Pills excellent. With other pills I had to continually increase the dose but I only take one-half pill twice a week and find that this keeps the system in splendid condition."

There is no question as to the efficiency of this well-known family medicine. One pill's dose, 25 cents a box. At all dealers and Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

PETROSINO CANDLE.

Memorial to Murdered Detective to Last 1,885 Years.

FINEST EVER CONSTRUCTED.

In a Cathedral at Padua, Italy, It Will Be Lighted Only on Every Candle-mas Day—Nine Feet High and Weighs 178 Pounds.

The mammoth memorial candle made in honor of Lieutenant Joseph Petrosino, the murdered New York detective, will burn in the little cathedral of St. Michael in Padua for nearly twenty centuries.

Although originally constructed by a New York firm to burn continuously for five years and two months, the citizens of Padua, in Italy, Petrosino's birthplace, desiring to perpetuate the memory of the martyr through thousands of generations, have persuaded the widow to burn it only on Candle-mas day, the 2d of February each year. This allows the candle to last precisely 1,885 years.

One of the firm who made the candle recently received a letter from the mayor of Padua, Signor Michelangelo di Stefano, making this request in behalf of the citizens of his city, and Mrs. Petrosino readily consented.

"It is so beautiful to think that our children and our children's children for generations will be able to cross the ocean and still see a light burning in honor of their father," said the little widow, bravely struggling to hide her tears. "Of course I would like to have the candle always burning and near me. But in New York it is not safe, and then Joe's friends and relatives want his birthplace to have some memento to which they can do honor."

The mayor in his letter says, "We know of no other way in which to consecrate the memory of our great Joe and to have his life ever shining before the youth of our city as our finest example of noble manhood." At his suggestion the name, "Joseph Petrosino, Detective," with the date "1909," has been placed on the base of the candle. Encircling this are the words, "A Martyr to Justice." When the candle has at last burned low and only the barest stub is left the charred wick and the bit of wax with this inscription will be placed among the relics of the church.

The candle was designed to be enshrined in the pro-cathedral on Mott street, New York, but threats of the Black Hand in the neighborhood led the makers and the widow to change the location.

While the Petrosino candle is not the largest one ever constructed, it is the finest. It is nine and one-half feet high and has a circumference of two feet six inches. It weighs 178 pounds. From within one foot of the tip to one foot of the base it is encased with 14 carat gold, laid on in octuple leaf. The centerpiece, all pure gold, shows lilacs of the valley and a reproduction in miniature of the holy college. The laying on of the gold and the fabrication of the design were the work of two men, who kept at their task thirty-six hours, with only a brief intermission for eating and sleeping. The bare cost of the candle, not counting the labor and the reward for the ingenuity of its construction, was \$450.

It is not a molded candle and is composed of 178 beeswax wrappings coated on the wick by slow dipping into the vat of beeswax. To facilitate this process a derrick twenty feet high was built. As the candle stands it can be picked off like an onion. The advantage of this method is that it can withstand much more heat and jarring without bending.

Artists from all over the United States have visited the candle shops and exclaimed that both in design and construction the Petrosino candle has never been equaled.—New York Globe.

Veal Cutlet With Bacon.

Divide the cutlet into round pieces two inches across, flatten out with a chopper. Melt one-half ounce of butter on a plate. Add some parsley chopped and an egg. Mix all well together. Flour the cutlets. Dip in the mixture in the plate, then into breadcrumbs. Cut the bacon in thin slices and spread on a skewer. Fry the cutlets in dripping. Drain on paper. Grill the bacon. Make a circle of mashed potatoes on a dish, place the cutlets on the top of the potatoes and garnish with rolls of bacon.—Chicago Record-Herald.

IN HIGH ALTITUDES.

The Most Common Ways in Which the Heart is Affected.

Dr. I. N. Hall, writing in the American Journal of the Medical Sciences, says that the dangers to the heart in high altitudes are the same as in other places, but are greatly exaggerated in some directions. The troubles most common and serious, he says, relate to inflammation of the heart muscle, hardening of the arteries and dilation of the heart.

The principle applied is this: The heart and lungs have an increase of functional work with each added degree of elevation and the consequent decrease in atmospheric pressure. To meet the increased demand on the circulation the heart must enlarge if the usual amount of exercise is taken. It is not unusual for acute dilation of the heart to occur after slight effort on the part of those whose arteries have begun to harden and who long have been accustomed to atmospheric pressure at the sea level. The trouble with those who suffer in high altitude, the writer declares, is that they try to do too much at first when they feel invigorated by the bracing atmosphere.

Dr. Hall adds that even an ascent in a railway train may be fatal to those who have but a narrow margin of heart strength, or the slightest exertion at such a time may produce angina pectoris. The average case of well compensated valvular disease will do as well at a high altitude as anywhere else if the patient observes proper precautions. In such a climate he is less susceptible to acute rheumatism.

A LUCKY SHOT.

Exciting Incident of a Lion Hunt in East Africa.

In the Wide World Magazine there is an exciting account of a lion hunt in British East Africa. The party consisted of Walter Cooper, Captain H. and his sister. The young lady captured four lions, while the men slew five between them. The tenth lion was killed through its desire to capture a native carrier who, realizing that things were becoming too warm for him, had bolted. The following is the account of the misfortune which befell the lion through his attempt to stay the haste of the native:

The lioness, attracted by the sight of the fleeing man, swerved off suddenly and made after the fugitive. The man had not more than twenty yards start, and the great brute rapidly overtook him. Miss H. fired again, and we men both fired as well, but we were not near enough to make a good running shot. The wretched man, with a courage born of desperation, turned at the last moment and hit at the lioness with his rifle. The blow fell a bit short, and the enraged brute, snapping at what came nearest, caught the weapon in her mouth at the muzzle. The pace at which she was traveling was so great that Hassan was hurled backward, and in falling his finger caught the triggers, letting off both barrels. By the most extraordinary piece of luck the rifle was pointing straight down the beast's throat at the moment, and down she went, with her head nearly shot away, right on top of him.

Notorious Women Gamblers.

One of the most notorious female gamblers of the eighteenth century was Miss Pelham, the daughter of the English prime minister. She not only ruined herself at cards, but would have beggared her sister Mary as well had not their friends intervened and insisted on the sisters separating. Horace Walpole gives a pitiful account of "poor Miss Pelham sitting up all night at the club without a woman, losing hundreds a night and her temper, beating her head and making a scene before the young men and the waiters." Another writer says that the unhappy woman often played cards with the tears streaming down her cheeks.

Lady Mary Compton, an old maiden lady, a contemporary of Miss Pelham and, like her, addicted to gambling, had the same propensity to tears. When she lost, we are told, she wept bitterly—"not for the loss itself, she was careful to explain, "but for the unkindness of the cards."

A Bank of Brides.

Simla, the summer capital of the Indian empire, is a pretty pine treed place well up in the foothills of the Himalayas. A feature of Simla life is the annual fair held by the native hills people, an attractive item of which is a "bank of brides" in an amphitheater, where six numbers of young women who sit calmly announce that they are candidates for hymeneal honors. Some of these aspirants to matrimony so patiently awaiting a choosing are quite pretty and have intelligent faces, but those of Mongol caste must needs linger long for a partner if personal beauty enters into the equation.

Love in a Flat.

"May I kiss you?" The girl hastily consulted a document.

"You may," she said. "Why did you consult that paper?" "To see if there is anything in our lease prohibiting it."—Louisville Courier-Journal.

Nice Discrimination.

"Stop!" cried an author to a maid-servant. "What papers are you burning there?"

"It's all right, sir," was the reply. "These are only the old sheets covered with writing. I haven't touched the clean ones!"

Although vanity is supposed to be a feminine trait, one doesn't have to scratch very deep to find it in a man.—Chicago News.

TODD TO TRAIN ON AIR

Aeronaut to Prepare Astronomer For Trip Toward Mars.

WILL HAVE TO BE SKY BROKEN

Both Must Learn to Breathe Tank Oxygen Before They Make Balloon Journey to Signal the Planet—Will Use Water Ballast and Carry Ten Miles of Wire.

Leo Stevens, the aeronaut, got back to New York from Amherst college the other day, having spent several days with Professor David P. Todd, the astronomer, planning the details of the balloon trip that he and the professor have promised themselves to take on the 15th of next September. Mars will be nearest the earth then, and the professor is going to try to intercept some of the electric messages he believes the wise old Martians have been patiently firing at us for decades.

"I don't know about getting in touch with Mars—that's the professor's business—but I have contracted to take him up ten miles, and I'm going to do it," said the aeronaut.

Stevens added that the professor was engrossed by the prospect of the trip and was ready to begin training right away.

Of course first of all the professor will have to be sky broken. He is going to begin on that in a few days, when Stevens will take him and a few of his Amherst boys on a little ascension at Springfield, Mass. After that, if the professor follows the aeronaut's directions, he will go up every week or so and learn to like it.

For the month of August the professor has laid out a course of training for himself and Stevens. It will consist of regular exercises at breathing tank oxygen in an air tight compartment. Stevens will probably take this course at Amherst. Its purpose will be to accustom them to life in the air tight aluminum compartments in which they will be penned for a greater part of their flight.

"One of the things that we settled at Amherst," said Stevens, "was the question of ballast. That has been troubling us. It will be impossible for us, penned up in our aluminum cases, to handle sand or anything of that sort. We have concluded, however, to carry water as ballast, which will be released by stopcocks in the aluminum boxes."

The balloon which Stevens will use has a lifting power of two and a half tons, but the aeronaut says he will make ample provisions for expansion in the rarefied regions, starting out probably with the balloon not more than one-third inflated; also he is going up a mighty sight faster than he would ordinarily, so as to keep from freezing when the balloon touches the high points.

"The throwing over of a quarter of a pound of ballast will send my balloon up a thousand feet," said he, "but when we start on the great ascension we will drop probably fifty pounds of water at a time."

Of course, being cooped up in the aluminum pens and fed on oxygen, speed won't interfere with their breathing.

Stevens declared that he and the professor are dreadfully in earnest with this project; that they have already placed orders in France for a special barograph and other instruments that will guide them in their flight; also they have begun to make arrangements for the manufacture of the aluminum cases and for about ten miles of special wire that the professor wants to pay out so as to keep in touch with the earth. Stevens estimates that the ten miles of special wire will weigh only about 200 pounds.

"It seems to be indispensable," said the aeronaut, "to the professor's scheme for getting into wireless communication with Mars. He has got to be grounded or something."

The aluminum tanks will close air tight like a refrigerator; but, according to the present day plans, they will be furnished with a heavy glass floor and windows. Mr. Stevens didn't expect, however, that they would have to resort to their tanks until they attain a height of five miles or more. They will have a little chair in each aluminum box and a good supply of "heat producing" food.

Stevens has never been higher than four and three-quarter miles. He said recently: "Three Frenchmen went up eight and a quarter miles about a year ago, but one of them was frozen to death and another paralyzed. They weren't prepared for such a height, however, and we will be. We intend to go up at least until it is impossible to draw oxygen from our tanks, and then, of course, we will take the warning and drop, for a balloon, my boy, always has the energy to drop."—New York Sun.

Shoes of Bronze For Women.

Mrs. Arthur Scott Burden has given society something new to talk about with her bronze shoes and slippers. It is a time for the unusual in footwear. The suede shoe already is mostly a matter of history, and there has been nothing fit to match the bronze shoe which Mrs. Burden wears both afternoon and evening. The effect is not as startling as might be expected. In fact, the bronze shoe has one advantage in giving a small effect to the feet, and the color shades tastefully with certain bright gowns. There is no doubt that as a result of Mrs. Burden's example bronze shoes will be worn in the near future by many women.

WILL FIGHT AL KAUFMAN

Jack Johnson Matched With the Big Californian.

New York, June 2.—Jack Johnson and Al Kaufman have been matched to fight for the championship of the world. Charlie Harvey, representing Kaufman, signed the articles for him, and Johnson placed his signature to the paper.

They agreed that the promoter bidding the highest would get the match. Johnson refused to box Kaufman in San Francisco in anything but a twenty-round bout. "I'll fight Kaufman to a finish any place but San Francisco. I have my personal reasons for not wanting a longer contest in San Francisco," he said.

No amount of urging would make the black champion tell why he didn't want to travel over twenty rounds in the greatest of all the fight centers.

Johnson agreed that the money should be cut 65 and 35 per cent. The latter part of July, the first of August or Labor day would please Johnson also.

FAILS TO MAKE A PROTEST

John D. Rockefeller Stands for Increased Assessment.

Tarrytown, N. Y., June 2.—Action of the Tarrytown tax assessors in adding an item of \$150,000 to the assessment of John D. Rockefeller failed to elicit a protest from him. Through representative Mr. Rockefeller announced that he was well satisfied with the valuation of \$545,809 on his country place at Pocantico hills. The new stone mansion just completed is assessed at \$250,000.

Dies Trying to Save Companion.

Pittsburg, June 2.—John Speidel, twenty-one years old, and Harry Anderson, aged seventeen, were drowned at McKaysport when the waves of a passing steamer overturned the boat in which they were enjoying an outing. Speidel was seized with cramps and Anderson lost his life trying to save his companion. Speidel was have been married within a few weeks.

Wounds His Brother-in-Law.

Marion, Ind., June 2.—In a pistol duel on the platform of the Pennsylvania railroad station at Poland, Alonzo Belleville was fatally wounded by his brother-in-law, William P. Gray. Several shots were fired. Gray was not injured. The fight is said to have been the result of a family feud. Gray gave himself up.

Death Was Accidental.

Honolulu, June 2.—That the death of Starr Hoyt Nichols of New York, who succumbed to an overdose of chloroform, was accidental, was the verdict returned by a coroner's jury. Testimony was given that Nichols was subject to insomnia and took chloroform to induce sleep.

Negro Sues Chinaman.

Superior, Wis., June 2.—A Chinaman who drew the color line is being sued by Robert E. Brown, a negro, because the Celestial caterer is alleged to have told the colored man "at 'they didn't serve coons in the 'China restaurant.'"

Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold only—you should always heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—a little late though—Congress says "Put it on the label. If poisons are in your Cough Mixture." Good! Very good! Hereafter for this very reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's label—and none in the medicine, else it must be law to be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding

Dr. Shoop's
Cough Cure
